- Listen with an open mind.
- Have open, honest conversations with yourself, as well as with your child.
  - *Prioritize what is important: finances, geographical location, type of school, strength of program.*
- Allow your child to take ownership of this process. Where s/he goes to school next year is not just the name of the school, or the quality of the program, it is your child's home for the next 4+ years.
- Let go!

Compare Colleges

The averages below are for students from your high school that have been accepted to that particular college.

School averages are displayed in green when your number is higher and in red when your number is lower.

Your PSAT score, if available, has been converted to the equivalent SAT score and compared to the average single SAT score of an accepted student. Your PLAN score can also serve as a direct estimate of your ACT score and can be compared to the average ACT score of an accepted student.

The column labeled "Accept" shows the number of students accepted out of the number of students that applied.
